PROFESSIONAL SUMMARY

Adaptable and experienced IT Technician with over 4 years spanning multiple IT opportunities, supporting organizations across fast-paced, multi-platform environments; Providing remote and on-site support in hybrid ecosystems using Windows, macOS, and Linux. Experienced in administrating and deploying Cloud and On-Premises infrastructure. Experienced in information systems analysis, requirements gathering, and documenting workflows to maintain SOPs, reliability, and positive end-user experience. Recognized as a professional and efficient technician known for calm, clear communication, thorough documentation, and effective troubleshooting.

EXPERIENCE

Service Desk Technician

TidalHealth, Salisbury, MD

July 2025 – Current

- Troubleshooting and maintaining endpoints across numerous hospital locations via on-site and remote means, while maintaining HIPAA compliance for patient information.
- Providing remote and on-site support for user endpoints, clinical/business apps (Epic, Citrix), Microsoft Office 365 Suite, MFA/authenticator and Imprivata workflows, peripherals/printers, and network connectivity issues; document fixes in Freshservice.
- Perform day-to-day Active Directory administration, including password resets, account unlocks, submitting provisioning user account requests, and enabling/disabling user accounts and endpoints.
- Resolve approximately 5000+ service tickets through Freshservice, consistently delivering same-day resolutions on 93% of issues while maintaining competitive KPI metrics for user assistance.
- Provide hands-on instruction and training for new Service Desk Technicians to ensure role familiarity and goal completion.
- Consistently assists end users on inbound call queue daily to resolve issues with first touch resolution with over 95% of calls taken, while maintaining 96% of CSAT surveys scored 7-8/8.
- Triage Epic issues and coordinate same-day escalation to application owners; tracked outcomes and follow-ups via organization's ticketing system, Freshservice.
- Collaborate with clinicians and application owners to analyze Epic and related system workflows, document requirements, and create documentation and visual guides to standardize workflows and troubleshooting steps for recurring issues.

Volunteer MSL Technical Support & Computer Science Tutor

University of Maryland Eastern Shore., Princess Anne, MD

September 2023 – May 2025

- Co-led a 16-week advanced CS program for 150+ students (ages 8–17); delivering interactive labs in Scratch, HTML/CSS, JavaScript, and Python during the Spring and Fall semesters.
- Provided technical support for lab environments (Windows, Office 365, browsers, peripherals, IDEs); ensured device readiness and class continuity.
- Created quick-start checklists and how-to references in various mediums that reduced recurring setup questions, sped up lab starts, and improved the students' understanding and retention of the lab material.

Undergraduate Computer Science Researcher

University of Maryland Eastern Shore., Princess Anne, MD

June 2023 – August 2023

- Dedicated 20+ hours/week to investigating flipped-learning approaches for CS courses; reviewing literature reviews, survey design and distribution, and conducting analysis to evaluate student engagement and retention.
- Produced weekly briefs and a final recommendation set for faculty; documented methods and findings in clear, repeatable summaries to inform curriculum planning.

Undergraduate Computer Science Teaching Assistant

University of Maryland Eastern Shore., Princess Anne, MD

February 2023 – May 2023

- Delivered 20+ hours/week of 1:1 and group support sessions in various programming languages, primarily C++, configuring Windows systems and softwares to 30+ students; guided debugging and IDE setup to meet course milestones
- Assisted faculty with classroom technology setup and AV troubleshooting (projectors, classroom displays) and compiling technical and startup guides to reduce time spent troubleshooting, allowing teaching sessions to move on schedule.

National Science Foundation REU Intern

Salisbury University., Salisbury, MD

June 2022 – August 2022

- Dedicated 40+ hours/week to researching anomaly detection on large datasets by using various data analysis tools, (Wireshark, Python, Linux, and MapReduce where applicable); scripted data collection and analysis while validating results with mentors.
- Presented findings to a scientific audience; delivered a concise report and poster with reproducible steps and troubleshooting notes for future cohorts.

EDUCATION

Bachelor of Computer Science

University of Maryland Eastern Shore, Princess Anne, MD

2021 – 2024 | GPA: 3.7/4.0

CERTIFICATIONS

- Python, Java, JavaScript, HTML, CSS (Programming and Scripting Languages)
- 1st Place Design Thinking (AMIE 2024)
- CompTIA Security+ SY0-701, Microsoft Certified: Azure Administrator Associate AZ-104 (In Progress)

CORE SKILLS

- **Systems & Platforms:** Azure and Microsoft System Administration | Active Directory (AD) and Microsoft Entra | Windows | Linux | macOS | Office 365 | Citrix/Citrix Workspace
- **IT Operations & Security:** ITOps | Cloud Infrastructure Administration and Management | Information Security Management | Cloud and On-Premises Data Security | Freshservice (Incidents/Requests, SLAs) | SOPs and Knowledge Base Documentation | CSAT/FCR Tracking
- **Networking & Connectivity:** Virtual Network Administration | Network Connectivity Troubleshooting
- **ITSM & Support Tools:** Freshservice/works | Microsoft Teams | Zoom | Cisco | Webex | Remote Support/Screen-Share
- **Device & Endpoint Management:** Virtual Machine Administration and Configuration | End-Point Configuration Management | Data Transfer & Backup | Patch Management | Hardware Repairs & Upgrades | Cable Management
- **Scripting & Automation:** Python, Bash, Powershell, Azure CLI and Azure Powershell
- **Soft Skills:** Troubleshooting | Root Cause Analysis | Technical Training | Excellent Written & Verbal Communication | Cross-Team Collaboration | Multi-Media Documentation | Remote and On-Site Support | Adaptability | Ticket Management | Incident Resolution
