PROFESSIONAL SUMMARY

Adaptable and results-driven Full-Stack Developer experienced in designing, developing, and deploying scalable web and mobile applications using JavaScript, React, Node.js, REST APIs, SQL, and Azure/AWS, backed by ITOps and Cloud Infrastructure Administration experience.

EXPERIENCE

Service Desk Technician

TidalHealth Peninsula Regional, Salisbury, MD

July 2025 – Current

- Support endpoints, Epic/Citrix, Office 365, MFA/Imprivata, and networking across HIPAA-compliant hospital sites.
- Perform Active Directory administration: password resets, unlocks, provisioning, and enabling/disabling accounts.
- Resolved 5000+ service tickets through Freshservice, consistently delivering same-day resolutions on 93% of issues and first-touch resolution on over 95% of inbound calls, while maintaining 96% of CSAT surveys scored 7-8/8.
- Triage Epic issues with same-day escalation to application owners; create visual guides for recurring issues.

Full-Stack Developer

WhyWait LLC, Remote

April 2025 – Sept 2026

- Led back- and front-end development of [WhyWait](#), a prototype mobile-queue web app replacing traditional kiosks.
- Leveraged Node.js, Expo, and a RESTful API to build a modular, scalable back-end with geo-fenced queues, real-time updates, notifications, JWT-protected endpoints, Google reCAPTCHA, and account management.
- Leveraged React, JavaScript, HTML, and CSS to develop a clean, user-friendly front-end for mobile and web, with SEO, accessibility, real-time updates, notifications, and account creation and login including OAuth.
- Used Git and GitHub for version control; deployed a functional prototype to production via AWS.
